Dear Dr. Kagan:

In response to your letter of June 7, 1984, I am pleased to inform you that a contribution of $2500.00 has been authorized by the Council for Tobacco Research to help defray the cost of the 1985 Gordon Research Conference on Elastin. We understand that as in the past, no part of our contribution will be used to support participants from the industrial sector.

The tentative conference plan is both interesting and ambitious, and indicates presentation of a significant number of topics of high relevance to our current priorities. We trust the conference will meet your expectations, and if schedules permit, we hope to be able to send a representative.

Sincerely,

Harmon McAllister
